

Theoretical Particle Physics

University of Siegen - Postdoc

Field of Interest: hep-ph

Deadline: 2022-12-15

Region: Europe

Job description:

The Theoretical Particle Physics group at the University of Siegen invites applications for several postdoctoral positions in particle phenomenology starting in the fall of 2023. The positions are paid according to the German employment scheme TVL E13 and are available for the duration of two years, with a possible extension by one more year.

The interests of the Theoretical Particle Physics group cover a wide range of topics in particle phenomenology including flavour physics, Higgs physics, jet physics, top physics, effective field theories, higher-order QCD calculations, Monte-Carlo event generators, lattice gauge theory and physics beyond the Standard Model.

Applications can be sent (preferably by email) to either of the principal investigators:

Prof. Dr. Guido Bell,
Prof. Dr. Thorsten Feldmann,
Prof. Dr. Wolfgang Kilian,
Prof. Dr. Alexander Lenz,
Prof. Dr. Thomas Mannel,
PD Dr. Tobias Huber,
Dr. Bjoern O. Lange,
Dr. Vladyslav Shtabovenko
Dr. Oliver Witzel

or to tpp-siegen.postdoc@uni-siegen.de.

The applicants should provide a CV, a statement of research interests and a list of publications, and they should arrange for three reference letters to be sent to the same address. The deadline for applications is **December 15, 2022**. Later applications will be considered as long as the position has not been filled.
